-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US patent number 4,146,756 (Kito et al).  
  
Regarding claims 1 and 4, Kito et al discloses a speaker apparatus comprising a diaphragm (12) and a cylindrical-shaped coil bobbin (6), and not comprising a center cap that covers said coil bobbin, and wherein said diaphragm is located such that it rests on the end section of said coil bobbin; and said coil bobbin and said diaphragm are located such that sound from said coil bobbin is not reflected (see figure 1).  
  
Regarding claims 2 and 6, Kito et al discloses a speaker apparatus comprising a diaphragm (12) and a cylindrical-shaped coil bobbin (6), and

not comprising a center cap that covers said coil bobbin, and wherein said diaphragm comprises a tab section, wherein said tab section is located such that it rests on the end section of said coil bobbin; and said coil bobbin and said diaphragm are located such that sound from said coil bobbin is not reflected (see figure 1).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over US patent number 4,146,756 (Kito et al).

Regarding claim 5, Kito et al does not specifically disclose wherein the end section of said coil bobbin on the side of said diaphragm and said diaphragm are fastened by attaching said tab section to said end section with adhesive.

However, an adhesive material for bonding elements together is well known. Additional, Kito et al does teach the means for coupling the yoke and the magnet together by adhesive material (column 2 lines 60-66)

Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to use the well known adhesive for fastening the tab section of diaphragm together with the end section of the coil bobbin.

***Allowable Subject Matter***

6. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan D. Nguyen whose telephone number is (571) 272-8163. The examiner can normally be reached on M-F 6:30-3:00.
